About me

Learning React Native and NodeJS

Also, I am constantly self-educating and ready to adapt to the company's standards, learn something new.

English – level B1 (Intermediate). I am self-studying English language.

What is the most interesting and/or technically challenging task you have experienced?

The WAQF project - the project was initially written in pure React, since it is an SPA, not SEO and social media integration are applicable.

Rewrote the project to the NextJS + TypeScript framework
